SOUTHERN STATES MADE BIG GAIN IN POPULATION.

Washington, June 30.—That the census of 1910 will show the Southern States, including Missouri and Oklahoma, have made a gain in population of twenty-one per cent since 1900, is the estimate of the Southern Commercial Congress. The gain of other states in the union is estimated at eighteen and a half per cent.

The five states of the South showing the greatest gain, according to the estimates, are Oklahoma, Texas, Missouri, Georgia and Alabama.

These figures are based on the provisional estimate of the census bureau.

JAPAN WILL PROBABLY ANNEX KOREA SOON.

Tokio, Japan, June 30.—There is every reason to believe that an announcement of the annexation of Korea by Japan is imminent. The Korean emperor has issued an edict delegating to the Japanese government the police administration of his country. This is the first step and the final step will be taken when Korea is practically under kurd. The garrisons are being steadily strengthened.

LEE O'NEIL BROWNE GAVE BIG BOND TODAY.

Springfield, Ill., June 30.—Representative Lee O'Neil Browne and Robert E. Wilson, indicted by the Sangamon county grand jury for conspiracy to bribe in the legislative "jack pot" investigation, appeared in court this morning and furnished ten thousand dollars bond, each.

The Record has a nice lot of specimens of engraving and embossing. Before buying come and look at them.

VIOLENT DOWNWARD BREAK ON NEW YORK EXCHANGE.

New York, June 30.—The stock market was flooded with selling orders today, as an aftermath of yesterday's violent declines. The opening was a downward plunge which established new levels for the year. This was followed by quick and violent rebound, but about eleven o'clock another big spasm of liquidation convulsed the market and prices again violently broke. American Smelting showed a decline of 3 1/4. Amalgamated Copper and Steel 3. The tone of the market was demoralized towards noon and there were indications that important market pools were letting go enormous holdings, for what they would bring. Southern Pacific showed a decline of 5 1/4. After noon a violent upward reaction occurred. Under the rush the shorts covered the greater part of their losses.

SHOEMAKER ROBBED AND INSULTED AT SAME TIME.

August H. Buchholz, the shoemaker who runs a shop in the little building just east of the Record office, left his place for a short time at nine o'clock last night going to the court house square a half block away to sit a while on one of the benches. He locked his place of business but while he was gone a thief or thieves entered the house by ripping open a screen on the back window, and stole a silver open-face Elgin watch, which he had left hanging on the wall, about \$18 in sole leather, rubber heels, tacks, polish, plates, shoe strings and a few tools. In all Mr. Buchholz lost \$35 dollars, he says. Some of the things that were taken were found outside the building, either dropped in haste or thrown away. Some of the rubber heels were wantonly cut to pieces and rendered worthless.

About the same time of the robbery Mr. Buchholz was passed by two men about thirty years of age, while he was sitting in the court house park and one of them said: "There is the now." referring to him with an insulting name. They made a move to pick up some rocks and make an assault on him, but did not do so.

Mr. Buchholz was mystified. At first he thought the men were fellow boarders playing a prank on him but he was soon convinced there was no joke about it. He asked them what they meant, and they moved on down the street. Becoming alarmed, Mr. Buchholz went to get his watch and found it gone, and discovered the robbery. He reported the robbery and affair in the park but as he has no idea who could have desired to harm him, there is no clue. Mr. Buchholz came here recently from Kenna. He is apparently a harmless old man and his case is one of mystery.

THE McMURRAY CHARGES TO BE THOROUGHLY SIFTED.

Washington, June 27.—The senate committee created to investigate legislation concerning Indian contracts discussed the matter at considerable length today and tried to frame its plans, but made little headway. The time and place of hearing and the method of procedure will be determined later. Senators Jones, Burton and Hughes were the members present, the other two members Crawford and Percy, having left the city.

The committee announced that it would act as promptly as circumstances would permit and it would make a thorough investigation within the limits of the Hughes resolution. The scope of the senate investigation is limited to whether any senator during his term of office has been interested or connected with legislation affecting the approval of Indian contracts, or has done anything because of such interest, and whether any improper attempts to prevent or procure the passage of the bill affecting the approval of Indian contracts have been made at the session of congress just closed. The committee also announced that it appeared that Senator Gore of Oklahoma did not himself charge any member with being interested in any of these contracts, but simply stated that this charge was made to him by another person.

The house committee created to investigate the contract matter will not meet in Washington, if at all, until its meeting in Oklahoma City in August.

J. F. McMurray of McAlester, Okla., the attorney about whose contracts the whole matter revolves, his probable fees being estimated at from \$3,000,000 upward, will submit a statement to the committee setting forth that he has done nothing but what is legal and proper. This statement will not be presented until after Senator Gore submits his contentions formally to the committee.

ARTESIAN WELL SCARES TEAM FROM DRY PLAINS.

Boyd Smith and Dave Rogers drove into Roswell just before sundown last night, coming with their two wagons and teams from Kenna, up on the plains. Smith was in the lead and when he came suddenly over a little rise, out northeast of town and his horses saw for the first time an artesian well in all its glory, they took fright and ran away. The scared animals turned suddenly and ran the wagon off of the hill upon which the road is built at that place. The wagon tongue was broken and Smith was thrown out. Smith struck the ground on his right doubled fist, and the knuckles were badly bruised swelling his fist almost twice its natural size. He also received bruises and abrasions of the skin on his side and face. He was not seriously hurt however.

PARSONS AND MULLENS ADD TO THEIR CENSUS DATA.

In checking over their work in the addition of their list, Roy Parsons and James Mullens found a mistake yesterday which they had out short the total population of Roswell 83. Their first report was that according to their private census of the town, there were 6,464 people in Roswell. Correcting their error, the total number is announced to be 6,547. This, of course, is not the official U. S. report, and when the official announcement is made the number may be changed again.

JOE McCAIN TO OPEN DRUG STORE NEXT MONTH.

Joe H. McCain has all plans made to open a new drug store in Roswell on July 15. He has secured the building occupied by the Palace Saloon and will have the interior worked over from end to end. Work will start as soon as the saloon fixtures and goods are moved out. The drug store will be run under the firm name of the McCain Drug Company and will be a modern, up-to-date place of business, with a large soda fountain department. The soda fountain has been here several weeks in storage and is a beauty. A. F. Blue, a prescriptionist from Wichita Falls, Texas, has arrived to take a position in the new store.

Coming in Auto to Roswell.

Stop Night Work.

Paris, June 30.—By order of the minister of labor, night work for seamstresses and other working girls is prohibited, the decree becoming effective today. The sweating system in France and especially in Paris, has resulted in great abuses. In many of the fashionable establishments the girls have been in the habit of working until 10 and 11 o'clock at night and during the rush of the American season they were often retained all night, working four shifts.

REDUCTION GRANTED HAY SHIPPERS OF VALLEY.

Thomas Gahner, of Amarillo, Traveling Freight and Passenger Agent for the New Mexico Eastern, came down last night and remained until this morning looking after business. While in conversation with a Record reporter he gave some news of interest to every hay grower and shipper in the valley. Mr. Gahner said: "Mr. J. Brinker, our General Freight Agent, has seen that the company can handle the hay business of the Pecos Valley a little cheaper than heretofore and has decided to put on a one cent reduction on the hundred, effective July 30. Since the rate has been thirty cents per hundred pounds to Texas common points, the reduction to 29 cents means a saving of three and one-third per cent. on the freight."

"We have had some trouble in the past getting out the hay of the Pecos Valley, and have not been able to give the service we would like to have given; but I think that in the future that trouble will be abolished. We have changed the billing and re-consigning point from Amarillo to Farwell, and this we believe will result in much better service. We figure the cost at 11 cents to Farwell, from Roswell, and 18 cents to Texas common points beyond."

Too Many Watches.

Boston, June 30.—Owing to an over production of timepieces, the plant of the Waltham Watch Company closes today until July 25 involving enforced idleness for the 3,500 employees. The factory has closed five times since last December, and many of the working men are in desperate financial straits.

Denver Times Sold.

Denver, Colo., June 30.—Today's issue of the Denver Times will be the last under the editorial management of former United States Senator T. M. Patterson. The property will be taken over tomorrow by Jared Newell Husted, a Colorado capitalist. Senator Patterson will continue as editor and owner of the Rocky Mountain News, a morning newspaper.

Under the new ownership, the Times will be edited by Hugh O'Neill, one of the best known newspaper men in the Rocky Mountain district. Wallace P. Doty, for years business manager of the Denver Post, will be the business manager of the reorganized Evening Times.

An entire new plant of presses, linotype machines and other machinery will be installed by the Times, which under Patterson's ownership was printed at the News Plant.

Senator Patterson gives the following reasons for selling the Times:

"I consider that the battle between the people and the interests here in Denver has been practically won by the people. With the defeat of the water franchise and the adoption of the charter amendments Denver has been made a free city and the most offensive phase of the rule of the corporation bosses has been ended. If the people will use the recall and initiative and referendum wisely and fearlessly they can enforce a cleaner, more economical and at the same time more efficient administration of Denver's affairs than they have enjoyed for many years."

"I found the exacting duties of two daily newspapers more than a man of my years should burden himself with. Mr. Husted wanted The Times, and he agreed to pay the price I named. Wherefore with the battle of the people won, the sale giving me the opportunity to concentrate my best energies on the News—which is my first love in the newspaper world, anyway—I parted with it."

DEPARTMENT OF THE INTERIOR Office of Indian Affairs, Washington, D. C.—Sealed proposals for letting grazing privileges on the Mesasero Indian Reservation, New Mexico, under the permit system, will be received at the Office of the Commissioner of Indian Affairs, Washington, D. C., until 2 o'clock p. m., Monday, August 29, 1910, and will be immediately thereafter opened in the presence of such bidders as may attend. Maps showing location of the grazing districts and all necessary information may be obtained on application to the Superintendent of the Mesasero Indian School, Mesasero, New Mexico.

STATEHOOD ACTIVITY

Statehood means renewed business activity in New Mexico and a general period of prosperity.

This leads to something else---more advertising in order to take advantage of the opportunity.

And this leads the business man another step forward---what advertising medium shall he employ?

Those enterprising business men who have used the Daily Record for their advertising in the past know that through it they have achieved the best results, and will bear this in mind in placing their future advertising.

Experience has shown them and if you are not advertising in the Daily Record, it should show you. Profit by their experience!
